make the dragon a lightning

ChatGPT said:

Got it — do you want me to transform the **entire dragon into a creature made of lightning** (like a glowing thunder-dragon made of electricity), or just **add lightning effects to its body** (like cracks of energy running along its wings, tail, and scales)?

add blue scales

ChatGPT said:

Just to confirm — would you like me to keep the dragon **as a glowing lightning creature but layered with blue-scaled details** (like lightning forming around visible blue scales), or would you like it **fully back to a physical blue-scaled dragon with added lightning effects**?
